

Moving Little Minds

PRESCHOOL LITERACY EDUCATION

Self-Paced Learning Courses

Give your teachers the freedom to learn at their own pace with our self-paced online courses. Professional development shouldn't be stressful or time-consuming. Our courses provide CEU credits and give teachers the WHY behind research-backed, science-of-reading strategies, so they can build stronger literacy foundations without stepping away from the classroom. Group license discounts available.

\$50

Literacy Curriculums

Take the guesswork out of early literacy with our done-for-you curriculums for the 2s, 3s, and 4s classrooms. Designed for preschool classrooms, it's all about the HOW—giving teachers ready-to-use lessons that build alphabetic knowledge, phonological awareness, and pre-writing skills. Our lessons merge research-based instruction with play, so children learn in ways that are both effective and developmentally appropriate. Curriculum discounts apply to group or bulk orders.

\$75 +

Workshops and Trainings

Empower your teachers with live literacy workshops (virtual or in-person). Give your team the knowledge and confidence to build a strong literacy foundation from the very start. In each session, teachers learn the importance of early literacy and the research that supports it—the Moving Little Minds way—through both instruction and play. All workshops are approved by NC and SC DCDEE for CEU credits. **Parent trainings are 1 hour - \$200.**

\$500

School Support Products

From parent newsletters that bridge home and school, to book companions that extend learning beyond story time, to our famous flashcards and activity mats that make literacy hands-on and fun, we offer a wide variety of resources to support your teachers, children, and families. Each product is designed to strengthen early literacy foundations while keeping early literacy engaging, intentional, and developmentally appropriate.
